

NEW NAUTICAL COATINGS, INC.

Family Paint Makers Since 1978

We are a family owned and operated business built on quality, integrity, and service. In 1991 my brother David took over a small business that was founded by a brilliant chemist with the idea of making the best marine paints on the planet. Many thought David was crazy. But growing up in Florida we both learned to love everything about boating. Our passion, capitulated by our father's encouragement, enabled us to refocus the Sea Hawk brand on premium products that elevate the enjoyment of boating experiences beyond all others.

In a way, the Sea Hawk achievement mirrors that of a typical American success story. Two brothers with a passion for boating developing, manufacturing, and selling exceptional marine coatings that ultimately become recognized as the world's best. For this we are eternally thankful to God, Country and the dedicated People supporting our company.

Erik Norrie
CEO

David Norrie
President

In 2019 we decided to leverage our 8-acre manufacturing campus and extensive sales support staff by adding two other marine coatings brands under the New Nautical umbrella. Since then the [Blue Water Marine Paint](#) and [Flexdel/Aquagard](#) brands have been integrated into the enterprise which enables us to reach new market segments. Now our brand portfolio includes innovative products for every pleasure craft vessel at virtually every price point with each offering the ultimate in value within its range.

Here at New Nautical Coatings, our passion has a purpose which I am certain you will see from visiting the websites for our marine coating brands. As you do, feel free to reach out to us with any questions, concerns or suggestions to help enhance your boating experience.

Sincerely,
Erik Norrie
CEO
