

Custom Colors Block Barnacles

Appearance Like Never Before

Your boat says everything about you. From stem to stern, that special appearance you demand above the waterline will now extend below with your choice of colorful yet powerful antifouling paint. Including custom blended colors that coordinate with popular AWLGRIP® topside yacht finishes, COLORKOTE gives a compelling reason to enhance and protect the style and longevity of your hull that has never been available before.

6 Base Colors

BRIGHT WHITE 4910	DEEP BLACK 4905	BLUE 4902	RED 4901	GREEN 4903	YELLOW 4904
----------------------	--------------------	--------------	-------------	---------------	----------------

Blending two or more of the six COLORKOTE Base Colors in various ratios can produce a bottom paint color that complements your topside. Here are a few suggestions:

AWLGRIP Fighting Lady Yellow <hr/> 1 Gal Bright White 2 Qts Yellow	AWLGRIP Ice Blue <hr/> 1 Gal Bright White 2 Oz Blue	AWLGRIP Aqua Mist <hr/> 1 Gal Bright White 1 Oz Blue 1 Oz Green	AWLGRIP Sea Foam <hr/> 1 Gal Bright White 1.5 Oz Blue 6 Oz Green
AWLGRIP Sky Blue <hr/> 1 Gal Bright White 1 Qt Blue 4 Oz Deep Black	AWLGRIP Flag Blue <hr/> 1 Gal Blue 2 Qts Deep Black	AWLGRIP Red Mahogany <hr/> 1 Gal Red 1 Qt Deep Black	AWLGRIP Medium Gray <hr/> 1 Gal Bright White 1 Pt Deep Black

AWLGRIP
Stars & Stripes Blue

1 Gal Blue
1 Qt Red

Compatible with Every Hull Type

The next generation formulation of COLORKOTE enables application to virtually any hull type without the harsh effects of galvanic corrosion (sometimes referred to as dissimilar metal corrosion) when cuprous oxide in antifouling paint reacts with aluminum or steel/iron hulls causing these hull types to corrode prematurely. Because COLORKOTE is cuprous oxide free, it solves this problem yet provides powerful antifouling properties. This makes COLORKOTE the ideal hull coating for metal hulled vessels from steel hull yachts to aluminum pontoon boats.

Triple Biocide Strong

The guiding principle behind COLORKOTE chemistry is to inhibit marine growth, both hard and soft, without sacrificing the ease of application or a vibrant appearance. That's why we employ a ground-breaking triple-biocide technology where the antifouling efficacy is greater than the sum of its parts. Each biocide synergizes with its counterpart to deliver performance previously unavailable from a cuprous oxide-free antifouling coating.

Hand Crafted Quality

COLORKOTE is hand crafted in small production batches from premium quality raw materials and is 100% quality inspected to assure uniform performance and color consistency from batch-to-batch.
